

Changing Orders and Imaging Without Physician Orders

DiagnosTemps has a strict policy against conducting a diagnostic exam without the direction of a physician. I hereby am aware that is not only performing an exam without physician orders a violation of company policy that will lead to counseling and/or termination, but am also aware that my professional license could be subject to suspension and/or termination. Furthermore, I understand and acknowledge that I have no authority to alter physician orders and acknowledge that doing so can result in termination or the loss of my professional license.
